Brother and sister

I had a great day even it was raining,even the bad guys were on the street,today was a surprise for me .

Around 9 AM,I had a visit from an inspector From Social Affair Ministry,he asked me to follow him and I was kind of thinking why he wants me to follow him while he knows the street is not good and also the weather was very bad,my staff ask me to go and I asked P jonas and Surge to go with me just in case,and when I got there ,I was so surprise to hear from the Minister, I am the man who helps the most during difficult times of earthquake, and it will give me a certificate on December 23 and a check of 10,000 gdes (equal to \$ 300 us) I was more than happy, at least the children will have something for Christmas with this money

I am going to try to be on line tonight and I am waiting for you text message tomorrow to talk to the people at Solutions for Science.

God bless you

The sign of the end for Haiti

Since my earliest childhood, I have never seen such a situation in haiti, we saw the Tonton Macouttes act, but. What you see now is harder, no one can walk the streets without worry, while the world is afraid of being kidnapped or assaulted, or raped, or be injected with a needle the seeds of a person who was dead by cholerae. is the new fashion in Haiti, but nobody talks about in the newspapers. Yesterday he was 6 killed and 2 kidnapped in our neighborhood, this after noon, he just turned 4 dead yet in our neighborhood.

Day by day the situation becomes harder in haiti. Or we will be attacked or kidnapped, or they get killed by a poison syringe

We would change the neighborhood because we are not safe, we are too close to Cite Soleil for the safety of our children and our staffs, we must find another home

More information later

God bless you

Praise the Lord , brother and sister

I came from DR today with some good and bad news, the good news are, I was in the same car with Dashka beraserovich, one of the in charge of the German Red Cross, she trusted me and accepted to make the trip with me cause, she wants to see the children, the other good news is, she was very satisfied of her visit, she promise me that the german red cross will do something and as soon as she get back to germany she will have a discusion about our case (she is living to Germany today)

The bad news are, I have to change the valve and I have to do it fast, cause my body does not acceppt the treatment. I want you guys to read that with a lot of intention

I met with the heart surgeon today, and he told me: AS I AM A MISSIONARY , AND I AM HELPING A LOT OF PEOPLE, HE WILL CUT THE PRICE IN 2 FOR ME. Uselly that kind of operation , specially the one that I want, cost \$ 22.000, he will make it for \$11.000

WHAT HE WILL DO AND THE KIND OF OPERATION THAT I WILL HAVE:

He will change the valve without a surgery, he will inserte the other valve into a femoval vein in the groin, then up to the heart , throught a catheter, a small hose, I will only have a small scare as souvenir

As I am not Dominican, during the operation, Dr Johnny and my wife will assist, they already made that for over 270 people in the DR and some other foreing people, it's about 2 or 3 hours, I will recover after 5 days, but, I will have to be in the hospital a week before

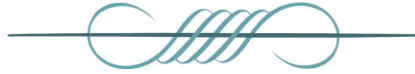

I want you guys to decide fast, cause I want to know what to do, I am not feeling ok, I was

asking him to give me a complete medical report to send you,he only let Dr Johnny had a look in my file and tell me that only Dr johnny can do that not him,cause I am not Dominican,and not hace any residence in DR

I sent photos of the children in uniforms,the lady from the German Red cross,I will send the testimony of the people in leon's area tomorrow

Please,I need your prayers,I am kind of weak ,I know that God will help me ,He is the one who made the doctor cut the price in 2,i need help ,but ,i NEED PRAYERS MORE
God bless you
